STEM - GRADE 12

Golden Acres National High School

2023- 2024

PROFILE

Dedicated Computer Programmer, Software Developer, and Web Developer with a strong track record of bringing public-facing projects to life using HTML, CSS, and JavaScript. Adept at writing stable, clean code, handling functionality, and troubleshooting issues. Passionate about delivering efficient digital experiences with a strong commitment to productivity and problem-solving.

EXPERIENCE

INDEPENDENT PORTFOLIO PROJECTS

2024 - Present

- Developed multiple web applications, including an interactive Rock Paper Scissors game and a Smart Home Property & Sensor Portal.
- Built responsive and dynamic user interfaces utilizing HTML, CSS, and JavaScript, ensuring clean code functionality and cross-browser stability.

MULTIMEDIA ARTIST

GIG Mall

2024-2024

- Designed engaging digital promotional posters and marketing materials (such as restaurant advertisements for local dining spots) to boost brand visibility.
- Managed social media posting and content distribution on platforms like Facebook to drive customer engagement and appeal to target audiences.
- Blended creative visual design with digital marketing strategies to support local business advertising goals.
